SMART FAUCET.

LED Temperature Indicator lets you know when your water has reached the right temperature for the job.

Reflex™ pulldown spray wand allows for greater reach in the sink and retracts smoothly and securely every time.

Wave sensor positioned at the front of the faucet starts and stops water flow with a simple hand movement, without touching the faucet.

Power Clean™ technology provides an improved and powerfully concentrated spray for faster cleanup.

POWER CLEAN™

Handle Activation offers manual operation, when desired.

Voice Activation controls your faucet through your smart speaker, precisely dispensing water at desired temperature and volume.
